Notice: Certain customers may be eligible to apply for the following designations based on their medical status or the nature of the business:

- Critical care residential customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as being dependent upon an electric-powered medical device to sustain life.
- Chronic condition residential customer: A residential customer who has a person permanently residing in his or her home who has been diagnosed by a physician as having a serious medical condition that requires an electric-powered medical device or electric heating or cooling to prevent the impairment of a major life function through a significant deterioration or exacerbation of the person's medical condition.
- Critical load public safety customer: A non-residential customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities.
- Critical load industrial customer: An industrial customer for whom an interruption or suspension of electric service would create a dangerous or life-threatening condition on the retail customer's premises.

You can apply for the applicable designation, which affords certain protections. Please contact NRG Business for more information. Critical load public safety customer and critical load industrial customer designations require you to complete an application with your TDSP.

Need Trees Trimmed Near Power Lines?

Trees and plants growing near power lines can create safety hazards and cause outages. If you notice vegetation growing too close to power lines, you can request to have it trimmed. Doing so will help prevent outages and ensure a safe environment.
